National/Regional strategies and initiatives to implement entrepreneurship education in the compulsory education system, 2011/12

Working Paper – End 2013

Entrepreneurship Education – Time for Change

Drawing on work of EU Thematic Working Group on Entrepreneurship Education

1. Developing the Entrepreneurial Ecosystem
2. Educator Development
3. New and radical curriculum and pedagogy
4. Learning outcomes and innovative assessment
5. Partner Engagement
6. Supporting aspiring entrepreneurs
7. Measuring progress and impact

Entrepreneurship360

**Improving Entrepreneurial outcomes from education and training in Europe
A collaborative project with OECD**

What?

- A self-assessment guidance framework to support more entrepreneurial education institutions.
- It will expand on work already done in HE, and bring it to schools and VET

Why?

- To address key characteristics necessary for cultural change spanning leadership, teaching and learning.
- Promote institutions to have more outward facing approach, be responsive to needs of labour market and to develop learners who are entrepreneurial and employment-ready.

When?

- Project commences by end 2013

Opportunities through Erasmus+

Entrepreneurship education as a priority area for funding

Key Action 1 – Learning Mobilities

- Staff or learner mobilities funding for eligible activities –can link to entrepreneurship

Key Action 2 - Cooperation

- **Strategic partnerships** between education and other relevant actors – entrepreneurship education is a priority
- Knowledge Alliances / Sector Skills Alliances - large-scale partnerships between education & training and business

Key Action 3 – Support to Policy Reform

- **Policy Experimentations** - Member State level experimentations to research large scale innovative methods to deliver practical entrepreneurial experiences in compulsory education
