

Dear Vocational Training School,

On **28th and 29th April 2022**, the third edition of the Barcelona 24h of Innovation will take place. Keep the date, as it is one of the most spectacular events on **Vocational Training**. In [this video](#) you will find a detailed explanation of the event and on this [website](#) you will find all the information you need to participate.

The 24HBcn consists of solving 24 challenges launched by big companies in 24 hours. In this third edition, **schools have a lot to say**, because it will be a distributed edition creating a **network of schools** called the **School Hub**.

Schools are the **seed of innovation**, so don't hesitate to form a team and participate! You have until **the 25th March 2022** to register!

Why participate?

- As a school you can **win a prize of €1500**.
- The winners will be able to enjoy a **unique and challenging experience** in a **3-day innovation camp**.
- You will get **training and resources** to work on innovative methodologies in the classroom.
- You will be part of a 24-hour **national and international network** of schools.
- The challenge proposed by the company can go **beyond the 24 hours event**, and be developed as a **real project in the future in your classroom**.

Although the contest will last for 24 hours and this differential feature creates a unique working environment, **the participating schools don't need to be open for 24 hours**. The work to be done is carried out using technological and digital applications that allow participants to connect remotely from home.

This edition is the first which offers the opportunity to participate to **schools from other cities around the world**. Also, it is a great opportunity for the schools to establish direct relations with large international companies.

In summary, in order to participate you should:

	Have a suitable space for the team of students to work properly: Connectivity (quality wifi, 1 pc or laptop with camera and microphone), digital equipment (projector or interactive screen, laptops or tablets for all students) and some space for the team to prototype their ideas (tables, blackboard, etc.).
	Be your school open from 8:00 in the morning until 20:00 in the evening. Remember that although we recommend that you are at the school the whole 24 hours, it is not mandatory to be open at night.

Create one or more teacher-led teams (**two teachers recommended**) with between **6-8 students**.

For more information, please visit the event website: www.24hbcn.com

If you think you meet the requirements for participation in the Barcelona 24h of Innovation Contest and you want to take part, register @ following this [link](#).

Don't miss this opportunity! You have **until March 25th!**

If you have any questions, please do not hesitate to contact us: esdevenimentsfp@xtec.cat
