

SCUOLA EDILE-CPT SIENA

ABOUT US

The Building School of Siena was set up in 1991.

It's a bilateral organization required by the Collective Labor Agreements of the construction sector; its Board is made up equally of the Entrepreneurs' Associations and the Workers' Trade Union Organizations.

Its staff has a long experience in managing training activities and also transnational EU projects.

OUR MISSION

Our mission is vocational education and training for all the professional profiles in building sector, to update, qualify, specialize employees, technicians and also young people not yet employed.

The School creates job opportunities throughout stage and internships; in order to meet the training needs of enterprises we organize specific activities according to their needs.

OUR ACTIVITIES

The strategy that characterizes the activities of our organization is to develop and transfer professional skills both practical and theoretical in order to improve the quality of the construction sector combining together both the preservation of traditional training with the innovation of didactic tools.

CERTIFICATIONS and ACCREDITATIONS

The Building School of Siena is an accredited VET organization for training by Tuscany Region and is certified according to the **ISO 9001: 2015** standard. Is also accredited to carry out **Labor Services** by ARTI – the Tuscany Regional Employment Agency.

Furthermore is accredited by **INAPP** National Agency Erasmus+ VET.

The School is part of the **FORMEDIL** national network system that coordinates initiatives in building sector by defining national standards of reference for each local school.

OUR TARGET

Young unemployed to be initiated into construction work

Just graduated and adult technicians

Apprentices

Construction companies employees

Female workforce to favor their insertion into the construction and decoration sector

Weak groups: inmates, migrants and asylum seekers

Furthermore, enterprises can make use of the Building School of Siena to design and organize courses for the training of specific professionals and to develop topics of their interest

- 44 women
- 1.221 men
- 299 foreigners

N. 145 training courses divided into:

135 Prevention and safety in the workplace

- N. 1.270 training hours
- N. 1.094 participants

3 Qualification courses/Certification of Competence

- N. 372 training hours
- N. 18 participants

7 Professional updating courses

- N. 20 training hours
- N. 153 participants

OUR FIRST BUILDING SITE SCHOOL

Fonte Nuova di Ovile:

Fontenuova d'Ovile Fountain restoration and rehabilitation project dealing with the base parts and flooring of the monument

Construction site period: *1992 – 1994*

Fontenuova construction site school represented an emblematic intervention for the consistency with the principle of preservation of the original techniques, cornerstone of our School work.

This fountain inspired our first logo.

30 YEARS OF BUILDING SCHOOL

Still today– although many changes in technologies and materials have deeply changed, as well as the professional profiles required– manual skills and more traditional knowledge remain essential components of construction work, especially in the contexts of buildings with historical and artistic value recovery.

During the last 30 years of activity, the Building School has worked on ancient materials and structures, transferring to young people the knowledge of the main traditional restoration techniques.

1° BUILDING SITE SCHOOL in PALAZZO PICCOLOMINI

FRESCO project- *Technician of Cultural Heritage Restoration and Decorated Architectural Surfaces.*

leading partner: CER – *European Center for Restoration;*

Partner: *Ente Senese Scuola Edile, University of Siena;*

Building site school: *realized at Piccolomini Palace in Siena.*

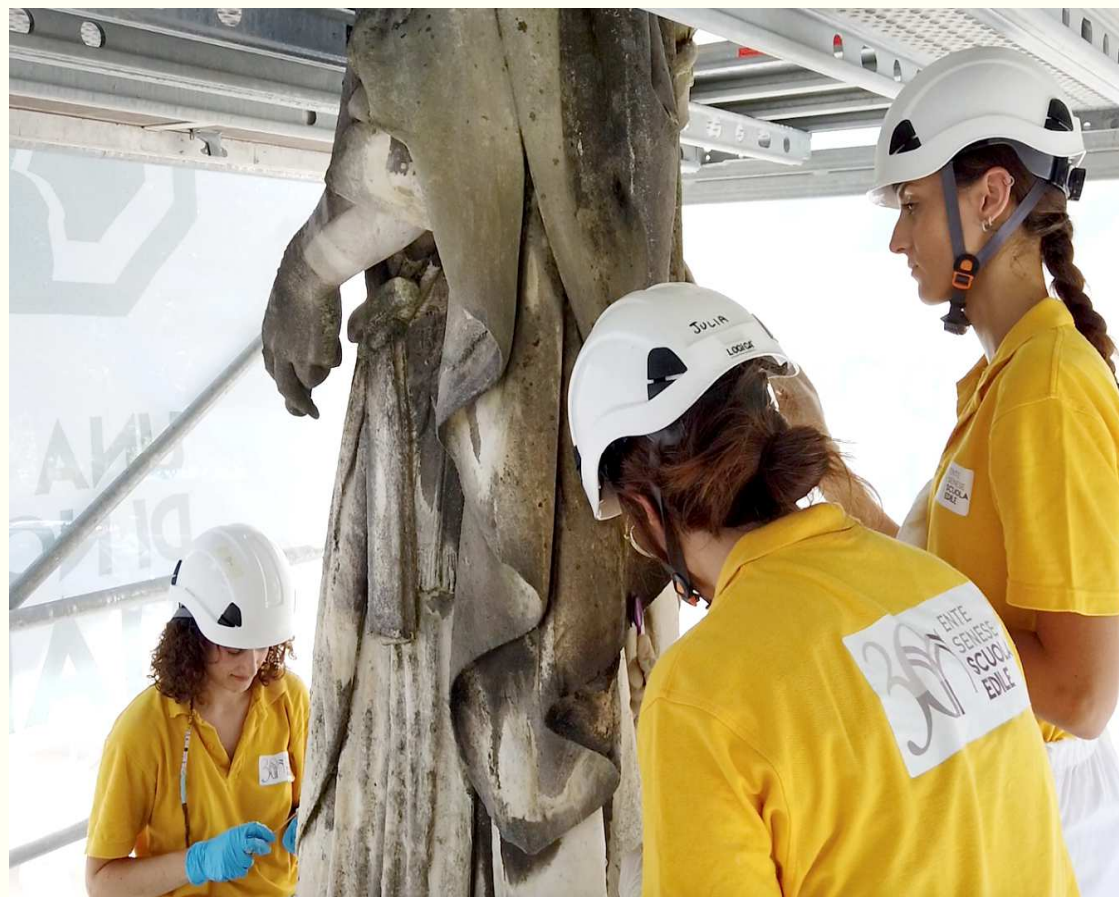

Construction site period: *February - September 2020*

STONE RESTORATION SITE SCHOOL

Let's Art MPS Foundation project-
Restoration of Tito Sarrocchi's statue
Period: *June- September 2022*
